Dear Parent/Carer,

RE: Half-Term Homework

Home Learning

This half-term, your child's homework can be accessed online via 'Google Drive' the same online platform the children used to access their home learning during the period of partial school closure. Your child has been set a variety of different activities to complete to support their learning by their class teacher.

The link to access your child's home learning is: <https://tinyurl.com/yabs9une>

Your child has also been given a 'Home Learning' exercise book in which to complete all of their half-term homework. If you are unable to access the online learning materials at home please get in touch with the school via phone so that alternative provision for your child can be made.

Maths

This half-term, all of your child's maths homework has been set via the 'Mathletics' online learning platform. Your child has been given an individual log in which can be used to access this resource via the mathletics log in page: <https://login.mathletics.com>.

Your child has been set specific activities to complete by their class teacher linked to their learning in class. Once your child has completed these activities, they will be able to access other activities linked to their curriculum work as well as the 'play live' feature. Please encourage your child to use Mathletics regularly as part of their homework routine to give them extra opportunities to practice mathematical skills and knowledge learned in class.

English

It is imperative during half term that your child also reads independently, is heard read or is read to **every day**. We recommend a minimum of 20 minutes per day for children in KS1.

Yours faithfully,

Mrs Byrne

(Headteacher)
